Professional Summary

To secure a challenging engineering role where I can apply my knowledge in electronics, robotics, and emerging technologies while continuously learning, innovating, and contributing effectively to organizational growth.

Education

Bachelor of Technology in CSE **2024 - Present**
Sapthagiri NPS University *CGPA-7.9*

Higher Secondary **2022 - 2024**
Bhavan Bangalore Press School *Percentage-75*

Technical Skills

Languages: C/C++, Java, Python, SQL, HTML, CSS, JavaScript
Frontend: Responsive Design, Interactive Animations, Component-Driven UI, Flutter/Dart
Frameworks/Libraries: Pandas, NumPy
Tools: Git, GitHub, VS Code, Android Studio, IntelliJ IDEA, Arduino IDE, Flutter
Soft Skills: Communication, Adaptability, Problem Solving, Team Coordination, Leadership

Projects

UniBridge | *Flutter, Dart, Firebase*

- Developed a cross-platform mobile application to streamline campus communication and student services.
- Implemented user authentication, real-time data synchronization, and role-based access for students and administrators.
- Designed an intuitive and responsive user interface to enhance accessibility and user experience.

WorkSphere | *Flutter, Firebase*

- Built a productivity and task management application to organize projects and daily activities.
- Implemented task creation, progress tracking, and deadline management with cloud-based data storage.
- Designed a clean, responsive interface for seamless task management across devices.

AI Recruiter | *Python, FastAPI, Hugging Face, Gradio*

- Developed an AI-powered recruitment assistant that analyzes resumes and generates interview questions.
- Integrated Hugging Face language models for resume evaluation and candidate assessment.
- Built an interactive web interface using Gradio and deployed the backend with FastAPI.

DAA Learning Hub | *HTML, CSS, JavaScript, Python*

- Developed a web-based learning platform covering Design and Analysis of Algorithms concepts.
- Integrated algorithm visualizations, notes, and interactive content to improve learning outcomes.
- Built a responsive interface for easy navigation across desktop and mobile devices.

Certifications

Infosys Springboard – Soft Skills Training	June 2026
The Linux Foundation – Introduction to Linux (LFS101)	May 2026
Google for Developers – Build with AI Bootcamp	June 2026
Free Software Movement Karnataka – Getting Started with LLMs & Agentic AI Workshop	June 2026
Cisco – Introduction to Modern AI	November 2025
Cisco – Apply AI: Analyze Customer Reviews	December 2025
Cisco – Introduction to Cybersecurity	December 2025
Full Stack Development (30 Days)	March 2025
